

INSTRUCTIONS FOR TRANSSHIPMENT LOG REPORT

VESSEL: Name of vessel registered to land or transship, shoreward of the outer boundary of the fishery management area, Pacific pelagic management unit species that were harvested by longline gear in accordance with Subpart D of 50 Code of Federal Regulations, Part 660.

PERMIT NO.: Number of the Federal longline fishing permit issued to the vessel owner by the National Marine Fisheries Service.

DATE: Date (month/day/year) fish were offloaded to (received by) the vessel.

BROKER/AGENT: Name of the broker or shipping agent, if any, who is handling the transshipment operations for the vessel.

VESSEL: Name of vessel offloading fish (i.e., transferring fish to the receiving vessel).

RADIO CALL SIGN: Radio call sign of vessel offloading fish.

If the vessel offloading fish is a fishing vessel (not a mothership, fuel tanker, a vessel without fishing gear) provide the following information:

Total number of days vessel fished

Average number of hooks fished per day

General area of catch - check (✓) the appropriate area: North Pacific: 180° - 90° E longitude
90°W - 180° longitude
South Pacific: 180° - 90° E longitude
90°W - 180° longitude

NUMBER RECEIVED: For each management unit species listed, including shark fins, enter the number received.
For species not listed, write in the name of the fish in the blank line with number received.

TOTAL WEIGHT RECEIVED: For each management unit species listed, including shark fins, and write-in's enter pounds received corresponding to the number received.

PRINT NAME: Printed name of vessel captain/operator submitting the report.

SIGNATURE: Signature of vessel/captain/operator certifying that the information provided in the report is complete and true to the best of his or her knowledge.

DATE: Date when the report was completed and signed by the vessel captain/operator.

All information specified in the transshipment report must be recorded within 24 hours after the completion of each offloading operation. The original report for each day of offloading operation must be submitted to the National Marine Fisheries Service within 72 hours following the date the vessel arrived in port to land the transshipped fish.
